EDUCATION AND TRAINING

02/09/2019 – 23/06/2023 Sahiwal, Pakistan

Software Engineering COMSATS University Islamabad, Sahiwal Campus

Website <https://sahiwal.comsats.edu.pk/>

WORK EXPERIENCE

04/07/2023 – CURRENT Abbottabad District, Khyber Pakhtunkhwa, Pakistan, Pakistan

React Frontend Developer SimplexMed

- Developing new user-facing features using React.js.
- Building reusable components for future use.
- Optimizing components for maximum performance.
- Dealing with RESTful APIs.
- Familiarity with code versioning tools such as Git.

15/12/2022 – 20/06/2023 Sahiwal, Pakistan

Trainee MERN Stack Developer CUI Sahiwal Software House

- Front-end Development
- Back-end Development
- Database Management
- Full-stack Integration

PROJECTS

02/09/2022 – 23/06/2023

FYP Project

CUI Course Folder

The CUI Course Folder project aims to develop a web application to streamline the management and organization of teaching course materials at COMSATS University Islamabad, Sahiwal Campus. Technology used in this project is MERN Stack.

06/05/2023 – 10/06/2023

Personal Portfolio

Using React Js I created my personal portfolio to showcase my skills, projects and experience.

Link <https://usamahassan.vercel.app/>

20/02/2020 – 25/04/2021

Inventory Management System

Streamlining university inventory management through an efficient and user-friendly system for enhanced organization and accessibility. Technology used in this project is MERN Stack.

10/01/2024 – 15/04/2024

MERN Chat App

The project utilizes a MERN stack augmented with Socket.io for real-time messaging, incorporating TailwindCSS and Daisy UI for styling. Authentication and authorization are managed via JWT tokens. Socket.io is leveraged for online user status tracking, while React Context handles global state management, supplemented by Redux. Comprehensive error handling is implemented across both the server and client sides.

06/06/2024 – CURRENT

Royal Falcon Limousine

Royal Falcon Limousine is a comprehensive web application built using the MERN stack (MongoDB, Express.js, React, Node.js). This project aims to provide a seamless and user-friendly platform for booking luxury services.

20/04/2024 – CURRENT

Just Fashion Web Portals

Just Fashion is a dynamic web application built using the MERN stack (MongoDB, Express.js, React, Node.js), featuring two distinct portals: one for admin users and

another for brands. The admin portal allows for comprehensive management of brands, products, and site operations, while the brand portal enables brands to list their products, manage inventories, and track sales. This dual-portal system ensures efficient and streamlined operations for both administrators and brands.
